FRIEZE NEW YORK 2015 | OUR FAVOURITE WORKS

18th May 2015 + Aaron Price

Zachary Leener – *Five Etchings (Penthouse)*, 2015

Zachary Leener *Five Etchings (Penthouse)*, 2015 Softground, drypoint, aquatint 42.5 x 36.2 cm

Zachary Leener is another one of the exciting artists at Frieze New York. His new group of five prints create melancholic scenes from life in the year 20015. This provides a personal character driven context for the formal questions posed by his sculptures. The story of these works begins with the medium in which they are rendered as Leener deftly handles an array of lines, textures and tones unique to copper plate etching. Tif Sigfrids represents the artist at the fair.
